I am in need of a temporary assistant to support me as I grow my business. I'm anticipating a need of approx. 15-20 hours per week for several weeks.

Skills needed:

- o Strong computer and communication skills
  - o Fluent with various Google and Google-integrated products
- o Strong organizational skills
- o Strong verbal skills and good at inter-facing with companies because there will be need to reach out to event planners in a wide range of fields including Schools (K-University), Libraries, Centers for the Well-Elderly, Corporate companies, spiritual centers.

Pay: \$22 per hour

Additionally, I would like to hire someone to help me with the work of building and repairing some of my percussion instruments. This is NOT work for which you will need to be skilled. Perhaps 10 hours once.
